TECHNICAL SKILLS

Programming Languages: Python, JavaScript, C++, SQL, HTML, CSS, PHP
Frameworks and Libraries: PyTorch, TensorFlow, OpenCV, Scikit-learn, NumPy, Pandas, WordPress, Bootstrap
Tools and Platforms: Git, GitHub, VS Code, Blender, Unity, YOLOv5, MobileNetV2, MS Office
Specialties: Computer Vision, Machine Learning, Deep Learning, Web Automation, Front-End Development, AI-driven Automation
Languages: English (Professional), Urdu (Native), Saraiki, German (Basic), Punjabi

EXPERIENCE

Freelance (Web & Automation) **2023 – Present**
Upwork & Local Clients *Remote*

- Developed and deployed WordPress and custom-coded websites tailored to specific client requirements and branding.
- Built AI-based automation solutions to streamline workflows, data processing, and content generation.
- Managed end-to-end project lifecycles, including requirements gathering, client communication, and independent delivery.

Front-End Instructor **2021 – 2023**
Online Education *Remote*

- Taught HTML, CSS, JavaScript, and MS Office to students, focusing on practical application and core concepts.
- Designed structured lesson plans and hands-on projects to build students' technical portfolios.
- Mentored students through technical challenges, improving their understanding of modern web development.

PROJECTS

Cartoon Emotion Detection System **PyTorch, OpenCV, MobileNetV2**

- Built a deep learning model to detect and classify emotions in cartoon characters from image data.
- Performed extensive data preprocessing, including augmentation and bounding box annotation for robust training.
- Optimized a MobileNetV2-based architecture to achieve efficient and accurate real-time classification.

Kidney Stone Detection System **YOLOv5, Computer Vision, Python**

- Developed a computer vision pipeline for the automated detection of kidney stones from CT scan images.
- Implemented YOLOv5 for object detection, handling medical imaging datasets with specialized preprocessing.
- Evaluated model performance using standard metrics (mAP, Precision, Recall) to ensure clinical relevance.

AI Automation Solutions **Python, API Integration, LLMs**

- Designed custom automation workflows for content generation and task optimization using various AI tools.
- Integrated external APIs to reduce manual labor and improve operational efficiency for diverse client needs.

Zumarah.com | WordPress Website **WordPress, PHP, CSS**

- Developed and deployed a professional business website, structuring key pages for services, team, and company profile.
- Created a responsive, optimized layout aligned with client branding to ensure a seamless user experience.

EDUCATION

National University of Modern Languages (NUML) **Islamabad, Pakistan**
Bachelors of Science in Artificial Intelligence (GPA: 2.9 / 4.0) *2023 – Present*

Islamabad Model College for Boys, G-10/4 **Islamabad, Pakistan**
Pre-Engineering (HSSC) *2020 – 2022*
